WHO WE ARE

TradeLink International Ltd. provides tailored, flexible and innovative logistics solutions on behalf of global large and SME clients. Our reach extends to more than 67 countries with on the ground specialists ready to assist you. We offer a comprehensive portfolio of logistics and value-added services and have built strong and lasting customer relationships by balancing global scale with local market specialists and a highly personal service.

+ OUR NUMBER ONE PRIORITY IS CUSTOMER SATISFACTION

Agile. Decisive. Expert.

TradeLink International Ltd. have been providing tailored, flexible and innovative logistics solutions on behalf of global clients for nearly 25 years. As a wholly Canadian-owned corporation, headquartered in Burlington, Ontario, TradeLink is consistently recognised for its operational excellence and 'can-do' attitude.

At TradeLink we recognise the business environment is more complex, interconnected and fast-moving than ever before.

We collaborate with our clients to understand their business challenges, leveraging our expertise, supplier relationships and global network to unlock value in their supply chains.

As your single-source logistics partner we implement 'control tower' solutions for greater integration and visibility across the supply chain and therefore uniquely positioned to deliver on service and cost efficiencies - even for the most demanding forwarding and logistics challenges.

Our reach extends to more than 67 countries with on the ground specialists ready to assist you.

Our services range from single shipment freight forwarding to complex global supply chain solutions, managed on behalf of leading international clients in Automotive, Pharmaceutical & Healthcare, Industrial & Manufacturing and Project Cargo sectors.

Our non-asset owning, service based business model and strong relationships with multi-modal partners, gives us the flexibility, competitive edge and capacity to meet our customers' needs and scale with their future requirements.

Our relentless focus on personal service, professional execution and performance excellence results in high-customer retention rates and long-term client relationships.

At the heart of the TradeLink brand are the core values that are intricate to our daily business - **agile, decisive and expert**, we are nimble and fast moving, structured to respond quickly in time critical environments with the skills and resources to deliver superior performance to our customers.

INNOVATIVE APPROACH IN SEARCH OF YOUR PERFECT SOLUTION

GLOBAL NETWORK & LOCAL SPECIALISTS

67+ Countries

Our partner network includes on the ground specialists who thoroughly understand local laws, regulations, business practices and customs procedures.

24 HRS CUSTOMER SUPPORT

24/7 Availability

Our distinctive 24/7 customer support enables customer supply chains that are agile, responsive and resilient to externalities of supply & demand changes.

SINGLE POINT OF CONTACT

Control Tower Solutions

Single point of contact responsible for the operation and coordination of all supply chain activities.

SERVICE BASED BUSINESS MODEL

Multi-Modal Agreements

Multi-modal carrier agreements ensures optimum supply chain flexibility, performance and price competitiveness.

STAFFING SOLUTIONS

On-Site & Remote

TradeLink is also able to manage all or any portion of your supply chain, within your existing operation or as a remote operation.

VALUE-ADDED SERVICES

End-to-End Solutions

From consolidation to deconsolidation, warehouse management to distribution, packaging, labeling and special cargo handling, we provide end-to-end supply chain solutions.

Exceeding your expectations. Anticipating your requirements.

TradeLink International Ltd. is your go-to partner for international air freight and logistics services offering reliable, tailored and competitive solutions for all your high priority consignments. Through our global network, local specialist teams and strong carrier relationships we provide comprehensive air solutions for SME and global clients, as well as industry-specific solutions for automotive, pharmaceutical & healthcare, industrial & manufacturing and project cargo events.

Multi-modal Sea + Air Solutions

TradeLink combines the cost benefits associated with sea freight and the rapid transit of air in delivering cost effective and timely solutions to meet your business challenges. Our strong relationships with major sea and air carriers coupled with our global network of hubs and supply chain expertise ensures your cargo arrives on time.

Customs Clearance

Our local market specialists are highly trained and experienced to navigate the complicated customs process. With our understanding of local restrictions and laws, documentation procedures and regulations, legal and insurance concerns, local protocols and office hours, TradeLink ensures your shipment is processed through customs without unnecessary delay or expense.

We recognise the business environment is more complex, interconnected and fast-moving than ever before and manufacturers, retailers and other vendors are facing increasingly demanding supply chain challenges. At TradeLink, effective supply chain management means having the right product, in the right quantity, in the right place, at the right time and at the right cost.

TradeLink is the first choice for many leading companies who require tailored, flexible and innovative solutions, that reduce risk and drive sustainable competitive advantage by getting their products to market faster and more efficiently.

We have developed supply chain solutions for retailers and manufacturers representing more than \$100 billion in revenues. Our end-to-end solutions facilitate global sourcing at optimal cost, support entry into new markets with minimal risk and help our customers bring new products to market quickly and cost-effectively.

Our dedicated key account management teams collaborate with our clients to understand their unique business challenges, developing industry-specific solutions that encompass planning, sourcing, production, storage, configuration and delivery to after-sales and returns.

SERVICE FEATURES:

- Supply chain assessment by our consultant teams
- 'Control Tower' solutions – a single point of contact responsible for the operation and coordination of all supply chain activities
- Multi-Country Consolidation (MCC) – optimising container loads
- PO / Vendor Managed Inventory (VMI) programmes
- Warehouse & Value-added services
- Risk Assessment – identifying and addressing vulnerabilities in the supply chain
- Special cargo handling – pick up/ packaging/shrink wrap/labelling
- Documentation for all processes and Customs clearance
- Real-time monitoring and control
- Track and Trace™ shipment tracking

Exceeding your expectations. Anticipating your requirements.

Warehousing and distribution solutions have become integral parts of any successful supply chain. TradeLink's extensive network of shared and dedicated warehousing and distribution centres offer a wide array of services combined with operational excellence and best-in-class processes to add maximum value to your supply chain and enable you to fulfil the raised expectations of your customers. At TradeLink we understand the movement of goods across suppliers, vendors, and customers. It's about getting goods where they need to be, when they need to be there, at the right time and as cost efficiently as possible.

OUR WAREHOUSING AND DISTRIBUTION OFFERING INCLUDES:

Order Fulfilment

Whether by bulk or small package, you can leverage our global distribution network for flexible, efficient shipping options.

Outbound services include:

- Origin cargo management
- Pick/Pack
- Pallet building and consolidation services
- Container loading and unloading
- Cross-Docking
- Electronic shipping confirmation
- Dedicated single point of contact

Value-Added Services

We offer a wide range of value-added services that can be designed and customized to meet your global needs.

Our value-added services include:

- Configuration/customization
- Assembly/kitting
- Product labeling, shrink wrap, palletizing
- Material insertion
- Repackaging
- Quarantine & QA inspection
- Reverse logistics

AUTOMOTIVE

The effective co-ordination of multiple-suppliers across multiple-geographies in fulfilling JIT (Just-in-Time) logistics and value-added warehouse management & distribution services on behalf of OEM (Original Equipment Manufacturer), Tier 2 and Tier 2 suppliers while meeting the challenge to reduce lead-times, reduce inventory and associated carrying cost and optimise supply chain economies.

PHARMACEUTICAL & HEALTHCARE

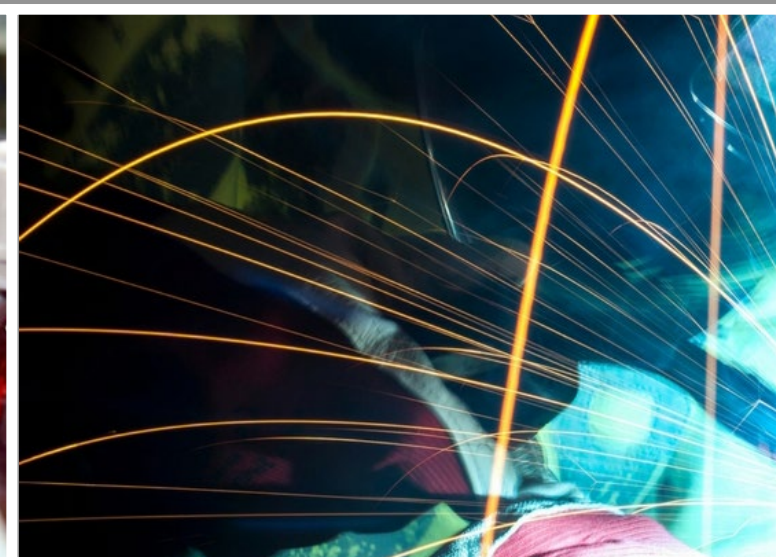

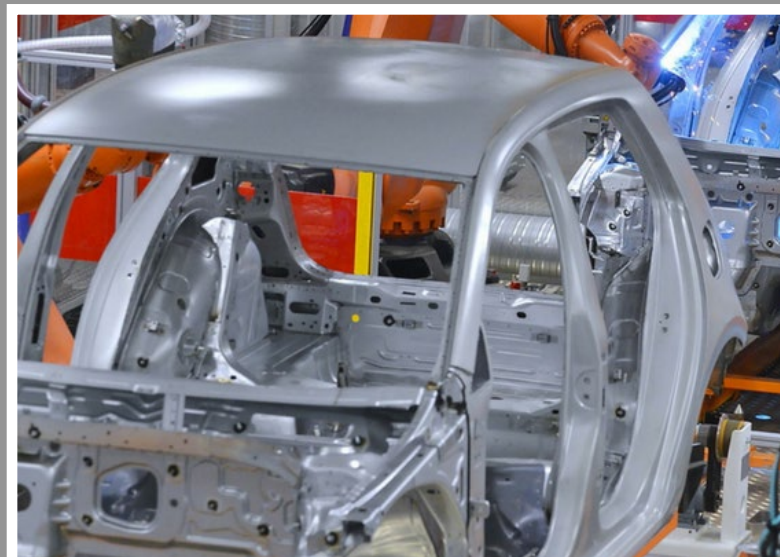

Robust supply chain management programmes that support more complex manufacturing and distribution processes, the ability to scale up and down very rapidly, provide increased visibility of stock in the supply chain and facilitate leaner, more demand-driven manufacturing and distribution processes. We provide a comprehensive portfolio of global supply chain solutions for pharmaceutical and healthcare.

MANUFACTURING & INDUSTRIAL

Transforming complex industrial supply chains with effective logistics solutions that reduce lead-times and improve service levels through carefully orchestrated vendor management programmes across global sourcing locations. TradeLink works with major industrial manufacturer companies that rely on us to provide competitive door-to-door solutions to meet the complex nature of their distribution channels.

PROJECT CARGO

Tailored solutions that capitalise on TradeLink's long established track record for project managing complex transport logistics for Break Bulk (BB), Heavy Lift (HL) and Out of Gauge (OOG) cargo. Drawing upon our depth of expertise, global carrier relationships and local specialist project capabilities – whether it relates to a manufacturing plant in Europe or a mining site in Africa – we ensure it reaches its destination on time, every time.

SERVICE FEATURES:
